

Amarr and LEED®

LEED®¹ (Leadership in Energy and Environmental Design) is a voluntary, consensus-based, rating system for developing high-performance, sustainable buildings, developed by The U.S. Green Building Council (USGBC).

Amarr Steel Sectional Door products positively contribute to the following **LEED®** Credits for Green Building Design & Construction:

Materials & Resources, Credit 2.1 and 2.2 Construction Waste Management

Over 95% of our product components are recyclable; therefore, scrap produced during construction can be diverted from landfills through use of a construction waste management plan.

Materials and Resources Credit 4.1 and 4.2: Recycled Content Percentage

Requirements:

Use materials with recycled content such that the sum of postconsumer recycled content plus 1/2 of the preconsumer content constitutes at least 10% or 20%, based on cost, of the total value of the materials in the project.

The minimum percentage materials recycled for each point threshold is as follows:

Recycled Content	Points
10%	1
20%	2

Amarr steel sectional door products are positive net contributors to Materials & Resources Credits 4.1 & 4.2 10% and 20% recycled goals. Content percentages are listed below.

Amarr Model	Previous Amarr Model Name	Recycled Content % ²	Pre-Consumer	Post-Consumer
Amarr 2742/2042/2741	Model 2700/2720/1350	58%	32%	42%
Amarr 2432/2731	Model 1000/1380	58%	31%	42%
Amarr 2002/2402/2502	Model 2000/2400/2500	35%	11%	29%
Amarr 2012/2412/2512	Model 2000i/2400i/2500i	35%	11%	29%
Amarr 2022/2422	Model 2000s/2400s	35%	11%	29%

Materials and Resources Credit 5.1 and 5.2: Regional Materials

Manufacturer Locations:

- 3800 Greenway Circle, Lawrence, KS 66046

²Percentages are based on information received from our vendors and have been represented to Amarr as true and accurate.
