

Amarr and LEED®

LEED®¹ (Leadership in Energy and Environmental Design) is a voluntary, consensus-based, rating system for developing high-performance, sustainable buildings, developed by The U.S. Green Building Council (USGBC).

Amarr Rolling Sheet Door products positively contribute to the following **LEED®** Credits for Green Building Design & Construction:

Materials & Resources, Credit 2.1 and 2.2 Construction Waste Management

Over 95% of our product components are recyclable; therefore, scrap produced during construction can be diverted from landfills through use of a construction waste management plan.

Materials and Resources Credit 4.1 and 4.2: Recycled Content Percentage

Requirements:

Use materials with recycled content such that the sum of postconsumer recycled content plus 1/2 of the preconsumer content constitutes at least 10% or 20%, based on cost, of the total value of the materials in the project.

The minimum percentage materials recycled for each point threshold is as follows:

Recycled Content	Points
10%	1
20%	2

Amarr Rolling Sheet Door products are positive net contributors to Materials & Resources Credits 4.1 & 4.2 10% and 20% recycled goals. Content percentages are listed below.

Amarr Commercial Model						Recycled Content % ²	Pre-Consumer	Post-Consumer
New Amarr Model Name	Amarr 5101	Amarr 5501	Amarr 5601	Amarr 5652	Amarr 5651	64%	36%	46%
Previous Model Name	5502	5536	5601	5652	5651			

Materials & Resources, Credit 2.1 and 2.2 Construction Waste Management

Over 95% of our product components are recyclable; therefore, scrap produced during construction can be diverted from landfills through use of a construction waste management plan.

Materials and Resources Credit 5.1 and 5.2: Regional Materials

Manufacturer Locations:

- 134 Janus International Blvd., Temple, GA 30179
- 13374 W. Peoria Avenue, Surprise, AZ 85379
- 1256 Brittmoore Road, Houston, TX 77043

²Percentages are based on information received from our vendors and have been represented to Amarr as true and accurate.
